HODGSON SEALANTS (PHOENIX) HAND APPLIED GLAZING COMPOUNDS

1. IDENTIFICATION OF THE SUBSTANCE / PREPARATION AND THE COMPANY

Trade Name	Phoenix Bedding Compound, Butyl 66, Colourglaze, General Purpose Putty, Linseed Oil Putty, Metal Casement Putty, Multipurpose Putty, Rapid Set Putty, Scottish Linseed Oil Putty, Scottish Steel Sash Putty.
Description	Hand applied putty in a bucket for use as a glazing compound or filler.
Manufacturer/Supplier	Hodgson Sealants Limited Belprin Road Beverley East Yorkshire HU17 0LN
Service	Tel: + 44 (0)1482 868321 Fax: + 44 (0)1482 679337
Emergency Phone Number (24 hr)	Tel: + 44 07703 517826

2. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical characterisation

Phoenix Product	Chemical Characterisation
Linseed Oil Putty Scottish Linseed Oil Putty	Homogeneous mixture of mineral filler and linseed oil,
Bedding Compound, Colourglaze, General Purpose Putty, Metal Casement Putty, Multipurpose Putty, Rapid Set Putty, Scottish Steel Sash Putty.	Homogeneous mixture of mineral filler, linseed oil, plasticiser and white spirits
Butyl 66,	Homogeneous mixture of mineral filler, synthetic rubber, plasticiser and vegetable oils

Hazardous Ingredients: Contains no hazardous components.

3. HAZARDS IDENTIFICATION

This product is low hazard. Prolonged skin contact may defat and dry skin leading to possible irritation and dermatitis.
Eye contact may cause smarting and irritation

HODGSON SEALANTS (PHOENIX) HAND APPLIED GLAZING COMPOUNDS

4. FIRST AID MEASURES

Eye contact	Wash eyes thoroughly with cold water. If irritation persists seek medical attention.
Skin contact	Wash affected area thoroughly with soap and water.
Inhalation	No first aid should be needed
Ingestion	If confined to the mouth, do not swallow; wash out mouth with water. If swallowed, drink water and seek medical advice, showing the container/label/safety data sheet.
Medical treatment	Give symptomatic treatment

5. FIRE FIGHTING MEASURES

This product is low fire hazard and no special fire-fighting measures are necessary

Suitable extinguishing media	Carbon dioxide, foam, dry powder or fine water spray. Water can be used to cool fire exposed containers
Unsuitable extinguishing media	None known
Special protective equipment/procedures	A self-contained respirator and protective clothing should be worn. Keep containers cool with water spray until well after fire is out. Determine the need to evacuate or isolate the area according to your local emergency plan.
Combustion products	Carbon oxides and traces of incompletely burned carbon compounds.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions	Wear proper protective equipment. Avoid contact with skin and eyes
Precautions to protect the environment	Keep away from drains and water courses
Methods for cleaning up	Scrape up and place in a container fitted with a lid for disposal as solid waste

7 HANDLING AND STORAGE

Advice on safe handling	General ventilation is recommended. Avoid skin and eye contact and do not swallow. Keep away from food and drink. Wash hands thoroughly with soap and water before eating or drinking.
Advice on storage	Store in cool dry conditions below 25°C and away from direct sunlight or heat sources.
Unsuitable packaging materials	None known

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limit	Not applicable
<u>Personal protection equipment</u>	
Respiratory protection	Not necessary but use in a well-ventilated area
Skin protection	Protective equipment is not normally necessary. Gloves should be worn where repeated or prolonged contact can occur
Eye protection	Avoid contact with eyes.
Hygiene measures	Exercise good industrial hygiene practice. Wash after handling, especially before eating, drinking or smoking
Additional information	None known

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Stiff paste for application by hand and knife, packed into plastic buckets
Colour(s)	Buff, Brown, White and Grey dependant on individual putty type
Odour	Very low odour
Flash point	Not applicable. Does not support combustion
Volatile Content	Very low
Specific Gravity	Approx. 2.0 to 2.1 g/cm ³ for all hand applied glazing compounds covered by this Safety Data Sheet
Water solubility	Insoluble in water. Some components soluble in organic liquids.

The above information is not intended for use in preparing product specifications.

10 STABILITY AND REACTIVITY

Stability	Stable at room temperature
Conditions to avoid	None established
Materials to avoid	None established
Hazardous decomposition products	During combustion Carbon monoxide and Carbon dioxide will be generated

11 TOXICOLOGICAL INFORMATION

On contact with eye	May cause smarting and irritation.
On skin contact	Prolonged contact may defat and dry skin leading to possible irritation and dermatitis.
If inhaled	Not applicable.
On ingestion	May cause irritation of the mouth, throat and digestive system and eventual vomiting.
Other health hazard information	Not known

12 ECOLOGICAL INFORMATION

Environmental fate and distribution	Contains a large proportion of inert fillers. Contains biodegradable and non-biodegradable components.
Ecotoxicity effects	Low aquatic and terrestrial Ecotoxicity. Contains a large proportion of inert fillers

13 DISPOSAL CONSIDERATIONS

Product disposal	Dispose of product and containers as solid waste in accordance with local regulations e.g. incineration or landfill. DO NOT dispose of product to drain
Packaging disposal	Dispose of product and containers as solid waste in accordance with local regulations e.g. incineration or landfill. DO NOT dispose of product to drain

14 TRANSPORT INFORMATION

Road /Rail (ADR/RID)	Not subject to ADR/RID
Sea transport (IMDG)	Not subject to IMDG code
Air transport (ICAO)	Not subject to ICAO regulations

15 REGULATORY INFORMATION

Classification as required by The Chemicals (Hazard Information & packaging for Supply) CHIP Regulations

Labeling according to EEC directive

Nature of hazard	No specific regulatory or labeling requirements
Hazard symbols	No specific regulatory or labeling requirements
R-phrases	No specific regulatory or labeling requirements
S-phrases	No specific regulatory or labeling requirements
EINICS	All ingredients listed or exempt

16 OTHER INFORMATION

This product Safety Data Sheet was prepared in compliance with Commission Directive 91/155/EEC, 67/548/EEC and 1999/45/EC as well as their relevant amendments, on the approximation of laws, regulations and administrative provisions relative to the classification, packaging and labeling of dangerous substances and preparations.

This product should only be used as stated in Hodgson Sealants Ltd. Literature. It is the responsibility of the persons in receipt of this Safety Data Sheet to ensure that the information contained herein is properly read and understood by all people who may use, handle, dispose or in any way come in to contact with the product. If the recipient subsequently produces a formulation containing the Hodgson Sealants product, it is the recipient's sole responsibility to ensure the transfer of all relevant information from the Hodgson Sealants Product Safety Data Sheet to their own Product Safety Data Sheet in compliance with Commission Directive 1999/45/EC.

All sections of this Safety Data Sheet have been amended since the previous version.

All information and instructions provided in the Safety Data Sheet (SDS) are based on the current state of scientific and technical knowledge at the date indicated on the present SDS. Hodgson Sealants shall not be held responsible for any defect in the product covered by this SDS, should the existence of such defect not be detectable considering the current state of scientific and technical knowledge.
